

Healthy Menu of Services

Leader in delivery of holistic wellness models of care — reflecting body, mind and spirit — to reduce impacts of type 2 diabetes on Indigenous peoples in Ontario and build community capacity in diabetes prevention.

Body Foot Care Program

This program provides holistic preventative care and services; the program features:

- Foot care education
- Ongoing foot care clinics
- Subsidy program
- Self-care kits

Contact Northern Region Sudbury, ON fcc@idhc.life or 289-668-0551 or 1-888-514-1370 to arrange for customized foot care presentations, clinics and consultation opportunities for your community or organization.

Mind Knowledge Department

This department provides frontline health worker professional development and features:

- Culturally-appropriate wellness resources
- Professional certification through ICBOC
- Professional training (such as Foot Care Level 1, Diabetes Awareness, Gestational Diabetes Prevention and more)

Contact kcoordinator@idhc.life to arrange for customized training and certification opportunities for your community or organization.

Spirit Diabetes Wellness Program

This program provides Diabetes Wellness awareness and education and features:

- Healthy lifestyle presentations from Indigenous perspectives
- Workshops and interactive healthy living activities
- Annual Event, at community events and health fairs

Contact dwcsouth@idhc.life to arrange for customized presentations and consultation opportunities for your community or organization.
